

ARTICLES FROM SOLID SURFACE DURA STONE DGE, LXS, LXX colour pallet

Cast stone "Dura Stone" is characterized with a wide range of applications. The material is used for the interiors of restaurants, cafes, bars, hotels, banks and offices, the production of laboratory tabletops, wall slaps and decoration elements.

"Dura Stone" surface can be renovated at any time by providing it with a sense of freshness.

"Dura Stone" can be used for the implementation of the most individual design solutions as surfaces are obtained in the solid state - without connection seams (separate parts of cast stone are connected in a seamless way).
