

## ARTICLES FROM SOLID SURFACE DURA STONE DGE, LXS, LXX colour pallet

Produced according to the American technology cast stone "Dura Stone" is similar to "Corian", "Cristalan" and "Wilsonart" materials based on its properties.

By using this homogenous material architects, designers and each one of us can implement our various dreams and enjoy a freedom of imagination.

Cast stone is resistant to scratches, various chemical liquids and is easy to clean.

It is one of the most durable and modern combinations of natural and synthetic materials.

Being non-porous the structure of material does not absorb liquids and thus prevent from stains and spread of bacteria.

In addition, the surface of these articles is warm and able to reach ambient temperature.
