# Eurobalt Grupp

## POWDER METALLURGY

# General overview

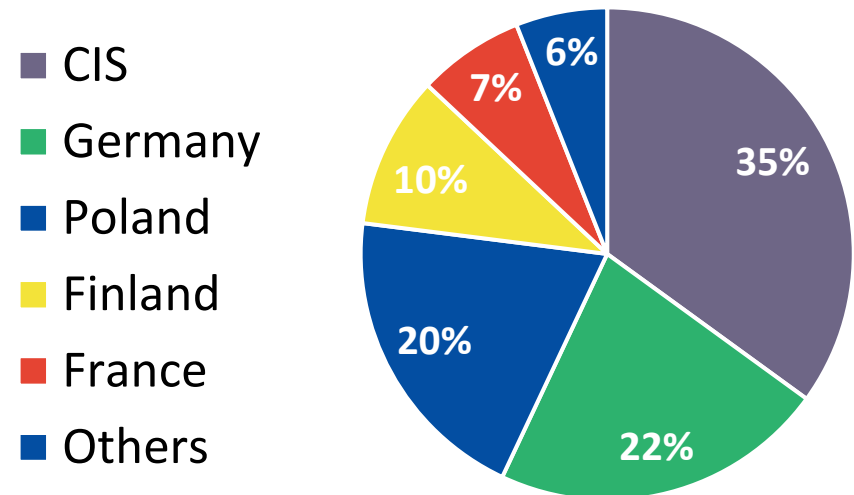

Eurobalt is an industrial group that specializes in production of metal parts, including parts produced by powder metallurgy:

- gears and transmission elements;
- bushings and agricultural machinery components;
- sensor parts;
- rotors and stators for oil pumps;
- shock absorber parts;
- customized metal parts.

Our quality management system is approved by TUV NORD.

## Sales structure by country

Our head office is located in Tallinn, Estonia, with branch offices in the Baltic countries and Malta. Our production facilities are located in China and India.

# Production overview

## Workshop and equipment

Floor area	6000 m2
Employees	102 workers
Production capacity	20 000 00 parts/year
Materials	Iron, copper and stainless steel based materials
Pressing machines	13 units
Sintering furnace	3 units
Machining equipment	More than 20 units
Quality control	Full set of equipment

# Production equipment

Equipment	Capacity	Quantity
Pressing machine	25-80 ton	6
	100 ton	3
	200 ton	1
	315 ton	1
	100 ton	1
	260 ton	1
Sintering furnace	12 inch	1
	14 inch	1
	18 inch	1
Steam furnace	150/300 kg	2

# Production equipment

Equipment	Quantity
Finishing machine	2
Sand blasting machine	1
Double-side grinding machine	4
Teflon coating machine	3
Ultrasonic cleaning machine	1
Deburring machine	1
CNC machining centers	8
CNC lathe machines	12

# Testing equipment

## Testing equipment

CMM machine

Projector testing machine

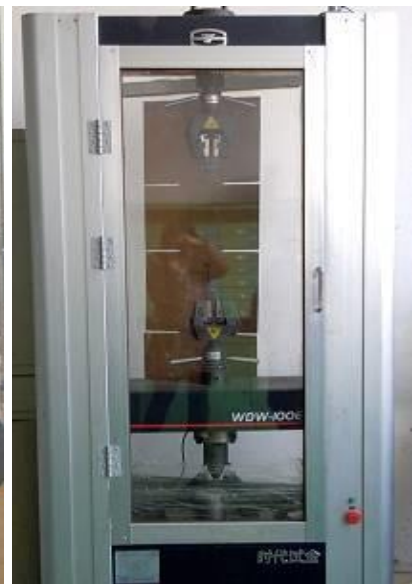

Mechanical properties tester

Roundness and cylindricity measuring machine

Spectrometer

Run-out tester, Hardness tester

Other testing equipment

# Delivery and samples

**EUROBALT®**

Eurobalt has a developed logistics chain, delivering goods in time and with appropriate handling.

- Sea transport – delivery within 35 days, starting from 90 EUR per ton
- Air transport – delivery within 10 days, starting from 3 600 EUR per ton
- Railway transport – delivery within 16 days, starting from 200 EUR per ton
- Express delivery companies – delivery within 5 days, starting from 20 EUR per kg

# We look forward to working with you!

**Feel free to send us your inquiry**
